Hyarchis

Blurrify

Have all the **required** information about your customer without breaching their **privacy**.

Easily comply your customer data with relevant **data protection** legislation.

What is Hyarchis Blurrify?

Blurrify is an application based on **Artificial Intelligence** which helps your Document Management System contents comply with relevant privacy legislation.

Blurrify is a **fully automated** tool which helps you to remove and/or blur sensitive personal information which your business does not strictly need in order to operate at full capacity.

Whether it comes down to GDPR or Basel IV, we help our customers to implement the principle of data minimization with the **highest possible ease**.

Blurrify benefits

	Compatible with any Document Management System (DMS)
	Near 100% accuracy in data recognition
	Suitable for unstructured documents of any file type
	Fully automated solution
	Easily comply customer data with relevant legislation
	ISO 27001 & ISO 27018

Security:

Our cloud environment is managed with state-of-the art tooling to make sure that your customer data is always safe with us. Our solutions comply with **ISO 27001** & **ISO 27018**
